Future WestCork *let's talk!*

West Cork: Our Destiny by Choice

initiative, inviting communities, business leaders, and stakeholders to align a broad shared vision and discuss how to reach our shared goals.

Create a dynamic economic environment full of opportunities?

Retain and maintain essential services in our region?

Make West Cork a more connected, co-operative and collaborative region?

Retain and develop our population and essential skills?

Care and provide for the marginalised in our community?

Plan for a vibrant and sustainable future for our youth?

get involved!

People throughout West Cork have assisted in Future West Cork initiative to date. Taking part in this initiative gives us the power to act with a greater understanding of what we need to create for a region.

join the conversation!

Go to www.futurewestcork.com where you can see what work has already been done, post your views and ideas about the future of West Cork and outline the actions needed to achieve a more prosperous and vibrant future.

host a workshop!

A team of local facilitators are available to host workshops and discussions throughout the region. This involves using The Futures Game - Ireland, which is a highly interactive and participatory game that looks at how decisions made today can affect a region over a 20 year time frame.

visit www.futurewestcork.com and get involved!

PK Rubber is owned by Pat and Anne Kelleher and has its headquarters at Rossmore, Coachford, Co.Cork. Pat Kelleher entered into the waste management industry in 1999 by setting up "Pat Kelleher Waste Tyre Services".

[Read more](#)

Quotes

"I added shredded rubber to my existing sand arena and find the springy surface to be better for the horses to take off, jump from and land on. On top I also notice the plastic surface reduces risk of injury to horses when they are being ridden and also creates a safer landing for the rider in the event of a fall."

Equestrian Surfaces

Shredded rubber is made from 100% recycled rubber tyres and is ideal for use as an Equestrian Surface i.e. for a Gallop or Arena. Most importantly the shredded rubber reduces the stress on the horse but also reduces the overall maintenance of the field.
